

CLAIMS

What is claimed is:

1. A facial skin cleansing and conditioning composition consisting essentially of:
 - a mild skin abrasive including corundum powder of substantially uniform size and shape having a purity of at least 99% and a size of about 120 FEPA;
 - an emulsifier including stearic acid, cetyl alcohol, and glyceryl stearate SE and polysorbate 20;
 - an emollient including mineral oil and cocoa butter (theobroma cacao);
 - a protectant and moisturizer including aloe vera (aloe barbadensis);
 - a neutralizer including triethanolamine;
 - a chelator including trisodium EDTA;
 - a preservative including methyl paraben, propylparaben and diisolidinyl urea; and
 - a diluent.
2. A facial skin cleansing and conditioning composition consisting essentially of:
 - a mild skin abrasive including corundum powder of substantially uniform size and shape having a purity of at least 99% and a size of about 120 FEPA;
 - an emulsifier including stearic acid, cetyl alcohol, and glyceryl stearate SE and polysorbate 20;
 - an emollient including mineral oil and cocoa butter (theobroma cacao);
 - a protectant and moisturizer;
 - a neutralizer including triethanolamine;
 - a chelator including trisodium EDTA;
 - a preservative including methyl paraben, propylparaben and diisolidinyl urea; and

A

a diluent.

3. A facial skin cleansing and conditioning composition consisting essentially of:

a mild skin abrasive including corundum powder of substantially uniform size and shape having a purity of at least 99% and a size of about 120 FEPA;

an emulsifier including stearic acid, cetyl alcohol, and glyceryl stearate SE and polysorbate 20;

an emollient including mineral oil and cocoa butter (theobroma cacao);

a protectant and moisturizer including aloe vera (aloe barbadensis);

a neutralizer including triethanolamine;

a chelator including trisodium EDTA;

a preservative including methyl paraben, propylparaben and diisolidinyl urea;

a diluent; and

an antioxidant including vitamin E.

4. A facial skin cleansing and conditioning composition consisting essentially of:

a mild skin abrasive including corundum powder of substantially uniform size and shape having a purity of at least 99% and a size of about 120 FEPA;

an emulsifier including stearic acid, cetyl alcohol, and glyceryl stearate SE;

an emollient including mineral oil and cocoa butter (theobroma cacao);

a protectant and moisturizer including aloe vera (aloe barbadensis);

a neutralizer including triethanolamine;

a chelator including trisodium EDTA;

a preservative including methyl paraben, propylparaben and diisolidinyl urea; and

a diluent.

A

5. A facial skin cleansing and conditioning composition consisting essentially of:
- a mild skin abrasive including corundum powder of substantially uniform size and shape having a purity of at least 99% and a size of about 120 FEPA;
 - an emulsifier including stearic acid, cetyl alcohol, and glyceryl sterate SE and polysorbate 20;
 - an emollient;
 - a protectant and moisturizer including aloe vera (aloe barbadensis);
 - a neutralizer including triethanolamine;
 - a chelator including trisodium EDTA;
 - a preservative including methyl paraben, propylparaben and diisolidinyl urea; and
 - a diluent.
6. A facial skin cleansing and conditioning composition consisting essentially of:
- a mild skin abrasive including corundum powder of substantially uniform size and shape having a purity of at least 99% and a size of about 120 FEPA;
 - an emulsifier including stearic acid, cetyl alcohol, and glyceryl sterate SE and polysorbate 20;
 - an emollient including mineral oil and cocoa butter (theobroma cacao);
 - a protectant and moisturizer including aloe vera (aloe barbadensis);
 - a neutralizer including triethanolamine;
 - a chelator including trisodium EDTA;
 - a preservative including methyl paraben and propylparaben; and
 - a diluent.

7. A facial skin cleansing and conditioning composition consisting essentially of:
- a mild skin abrasive including corundum powder of substantially uniform size and shape having a purity of at least 99% and a size of about 120 FEPA;
 - an emulsifier including stearic acid, cetyl alcohol, and glyceryl stearate SE;
 - an emollient;
 - a protectant and moisturizer;
 - a neutralizer including triethanolamine;
 - a chelator including trisodium EDTA;
 - a preservative including methyl paraben and propylparaben; and
 - a diluent.
